```
* ATTENTION: An "eval-source-map" devtool has been used.
```

```
* This devtool is neither made for production nor for readable output files.
```

* It uses "eval()" calls to create a separate source file with attached SourceMaps in the browser devtools.

* If you are trying to read the output file, select a different devtool (<https://webpack.js.org/configuration/devtool/>)

* or disable the default devtool with "devtool: false".

* If you are looking for production-ready output files, see mode: "production" (<https://webpack.js.org/configuration/mode/>).
